

BEN SCALES

LETTER FROM GOD

[With] witty lyrics and cleanly executed acoustic guitar[,] Scales entertains and charms in the vein of John Prine and Loudon Wainwright III.

One of Asheville's best songwriters.

*Peggy Seeger, internationally renowned
singer-songwriter-activist*

Ben Scales belts out the anthem for today's medical marijuana movement. [Growing Marijuana In My Yard] should be aired on every community radio station - hear this, Clear Channel. Even if a medical marijuana patient can't obtain medicine, at least they can tap their toes to the voice of sanity in Ben's song. No one's immune to illness, and with a song, Ben's providing the antidote to right-wing plant-a-phoebes!

*Berk Snow, host of Wild River, on KMUD & KMUE - FM
Humboldt Co. California*

The musical highlight of the conference.

*Steve Bloom, senior editor, High Times magazine,
upon hearing Ben perform "Growing Marijuana"
at the 2003 NORML conference*

Dangerously charming!
